

Cudgen Headland SLSC

Responsible Service of Alcohol Policy

The Cudgen Headland SLS club's directors, management and employees are committed to the responsible service of alcohol. The club's responsible service of alcohol policy aims to prevent intoxication, underage drinking, disruptive or violent behaviour and drink driving.

Cudgen Headland SLSC encourages responsible promotion and advertising practices to ensure it is not providing inappropriate alcoholic beverage service. Responsible service of alcohol signage is posted in bars and on in house advertising screens throughout the club.

Free water is available at the bar during opening hours.

Cudgen Headland SLSC has adopted the following house policy as a framework for the responsible service of alcohol. This includes, but not limited to:

- Refusing entry to anyone who is believed to be under the influence of alcohol or illicit drugs.
- Liquor service will be refused to underage people. Additionally, we will require proof of age when requested which may include driver's license and/or proof of age card before providing service. This includes take away liquor purchases.
- Any patron found on the premises that is approaching the point of intoxication will be refused service of alcohol and asked to leave the premises.
- Cudgen Headland SLSC ensures all employees hold a current RSA certification and are trained in the responsible service of alcohol. This is to ensure they understand their duty of care towards our patrons and their responsibilities for us to remain compliant under the liquor act.
- Alcohol will not be promoted in a way that encourages minors to seek purchase, or consumption of alcohol on our premises. Any minor that approaches a bar or is found in a restricted area will be returned to a child friendly part of the club.
- The club will not support any promotional practice that encourages the excessive consumption of alcohol, or the rapid consumption of alcohol.
- Members and visitors can be banned, or have their memberships suspended, for any ongoing responsible service of alcohol occurrences, or major breaches of club policy.
- No patron will be served triple nips of spirits.

Alcohol and the Law

In NSW various acts control the sale and service of alcohol. There are four basic points which are relevant to responsible serving practices.

- A person shall not sell or supply liquor to a person under the age of 18 years.
- A licensee shall not permit intoxication or any indecent, violent, or quarrelsome conduct on their licensed premises.
- A person shall not sell or supply liquor to any person who is at the time affected by alcohol.
- Where a person is affected by alcohol on the licensed premises, the licensee shall be deemed to have permitted intoxication on premise unless they and their employees took all reasonable steps to prevent it from occurring on the licensed premises.

The liquor licensing act aims to ensure that those who consume alcohol only do so in a responsible manner. Cudgen Headland SLSC is committed to the principles of responsible service of alcohol. All employees must adhere to the following responsible service of alcohol practices. If you wish to discuss the alcohol requirements of your function, please do not hesitate to contact us. It is an offence to permit intoxication on club premises. The club promotes the responsible service of alcohol.
